UPLOADING WITH AN ACCOUNT

If we have created an account for you, you can use either the web (<http://files.cdmstudios.com>) or an FTP client such as FileZilla (using <ftp://files.cdmstudios.com>) to upload your files. Login with the credentials provided and find your folder (it will be titled "For <client_name>"). You will not be able to delete or overwrite files, so if your upload fails, please rename the files so they can be uploaded successfully.

If you would like to use secure transfers, we support SFTP and HTTPS. We can also send your files via "dropship" and a password. You will receive an email with a link to your file and a password, if needed. Here are typical client settings:
